

PECB Certified AS9001 Foundation

Become acquainted with the best practices of Aerospace Quality Management Systems based on AS9100

Why should you attend?

AS9100 Foundation training enables you to learn the basic elements needed to implement and manage an Aerospace Quality Management System (AQMS) as specified in AS9100. During this training course, you will be able to understand the different modules of an AQMS, including AQMS policy, procedures, leadership and commitment operational planning and control, product safety, prevention of counterfeit parts, performance measurements, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for a "PECB Certified AS9100 Foundation" credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach.

<p>Who should attend?</p> <ul style="list-style-type: none"> ➤ Individuals involved in Aerospace Industry ➤ Individuals seeking to gain knowledge about the main processes of Aerospace Quality Management Systems (AQMS) ➤ Individuals interested to pursue a career in Aerospace Industry 	<p>Learning objectives</p> <ul style="list-style-type: none"> ➤ Understand the fundamental principles of an Aerospace Quality Management System (AQMS) and its correlation with ISO 9001 ➤ Comprehend the concepts, structure, requirements and main processes of an AQMS ➤ Understand the approaches, methods and techniques used for the implementation and management of an AQMS
<p>Course agenda DURATION: 2 DAYS</p> <ul style="list-style-type: none"> ➤ Day 1: Introduction to Aerospace Quality Management System (AQMS) concepts as required by AS9100 ➤ Day 2: Aerospace Quality Management System requirements and Certification Exam 	<p>Prerequisites</p> <ul style="list-style-type: none"> ➤ None
