

PECB Certified Environmental Risk Assessment Foundation

Become acquainted with the best practices of Environmental Risk Assessment (ERA)

Why should you attend?

The Environmental Risk Assessment (ERA) Foundation training enables you to learn the basic elements to perform an Environmental Risk Assessment in the context of ISO 14001. During this training course, you will be able to understand the best practices used to implement an Environmental Risk Assessment framework that provides the foundation for identifying, analyzing and evaluating risk in an organization.

After completing this course, you can sit for the exam and apply for a "PECB Certified Environmental Risk Assessment Foundation" credential. A PECB Foundation Certificate shows that you have understood the fundamental concepts, processes and framework.
