

PECB Certified ISO 10377 Foundation

Become acquainted with the best practices of Consumer Product Safety based on ISO 10377

Why should you attend?

Consumer Product Safety Foundation training enables you to learn the basic elements to monitor, measure and manage Consumer Product Safety as specified in ISO 10377 and ISO 10393. During this training course, you will be able to understand the best practices used to ensure safety in design, production and the marketplace.

After completing this course, you can sit for the exam and apply for a “PECB Certified Consumer Product Safety Foundation” credential. A PECB Foundation Certificate shows that you have understood the fundamental concepts, methods, techniques and management approach.
