PECB BEYOND RECOGNITION

PECB Certified ISO 28000 Lead Implementer

Master the implementation and management of Supply Chain Security Management Systems (SCSMS) based on ISO 28000

Why should you attend?

ISO 28000 Lead Implementer training enables you to develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining a Supply Chain Security Management System (SCSMS) based on ISO 28000. During this training course, you will also gain a thorough understanding of the best practices of Supply Chain Security Management Systems and be able to improve efficiency in managing potential security risks and their impacts in an organization`s supply chain.

After mastering all the necessary concepts of Supply Chain Security Management Systems, you can sit for the exam and apply for a "PECB Certified ISO 28000 Lead Implementer" credential. By holding a PECB Lead Implementer Certificate, you will demonstrate that you have the practical knowledge and professional capabilities to implement ISO 28000 in an organization.

Course agenda
