

## PECB Certified ISO 39001 Lead Implementer

Master the implementation and management of Road Traffic Safety Management Systems (RTSMS) based on ISO 39001

### Why should you attend?

ISO 39001 Lead Implementer training enables you to develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining a Road Traffic Safety Management System (RTSMS) based on ISO 39001. During this training course, you will also gain a thorough understanding of the best practices of Road Traffic Safety Management Systems to improve efficiency and overall performance of the organization and reduce death and serious injuries related to road traffic crashes.

After mastering all the necessary concepts about Road Traffic Safety Management Systems, you can sit for the exam and apply for a "PECB Certified ISO 39001 Lead Implementer" credential. By holding a PECB Lead Implementer Certificate, you will be able to demonstrate that you have the practical knowledge and professional capabilities to implement ISO 39001 in an organization.

### Course agenda

DURATION: 5 DAYS

- Day 1: Introduction to ISO 39001 and initiation of a RTSMS
- Day 2: Plan the implementation of a RTSMS
- Day 3: Implementation of a RTSMS
- Day 4: RTSMS monitoring, continuous improvement and preparation for a certification audit
- Day 5: Certification Exam

### General information
