

PECB Certified Lead Forensics Examiner

Master the Computer Forensics processes

Why should you attend?

Lead Computer Forensics Examiner training enables you to acquire the necessary expertise to perform Computer Forensics processes in order to obtain complete and reliable digital evidence. During this training course, you will also gain a thorough understanding of Computer Forensics fundamentals, based on the best practices used to perform forensics evidence recovery and analytical techniques. This training course is focused on core skills required to collect and analyze data from Windows, Mac OS X, and Linux operating systems, and also from mobile devices.

After mastering all the necessary concepts of Computer Forensics processes, you can sit for the exam and apply for a "PECB Certified Lead Computer Forensics Examiner" credential. By holding a PECB Lead Computer Forensics Examiner Certificate, you will be able to prove that you have the expertise to lead advanced forensic investigations and conduct forensics analysis, reporting, and evidence acquisition.

Course agenda

DURATION: 5 DAYS
