

PECB RISK ASSESSMENT WITH MEHARI METHOD

DEVELOPING THE NECESSARY SKILLS TO PERFORM A RISK ASSESSMENT BASED ON THE MEHARI METHOD

SUMMARY

This training enables the participants to master the basic risk management elements related to information security using the MEHARI method. The MEHARI (Méthode Harmonisée d'Analyse de Risques) method was developed by the "Club de la Sécurité des Systèmes d'Information Français" (CLUSIF). Based on practical exercises and case studies, participants acquire the necessary knowledge and skills needed to perform an optimal information security risk assessment and manage risks in time by being familiar with their life cycle. This training fits perfectly in the framework of an ISO/IEC 27001 standard implementation process.

COURSE AGENDA

Day 1	Start of a risk assessment with MEHARI
Day 2	Assessment of vulnerabilities and risk, according MEHARI
Day 3	Security planning according to MEHARI & Exam PECB's 3 Hour RISK ASSESSMENT WITH MEHARI METHOD Exam is available in different languages. Candidates who fail the exam will be able to retake the exam for free within 12 months from the initial exam date.

After successfully completing the exam, participants can apply for the credentials of PECB RISK ASSESSMENT WITH MEHARI METHOD.

GENERAL INFORMATION

- ▶ An educational version of the software "Riscare" is given to the participants and a copy of the official MEHARI documentation published by the CLUSIF
- ▶ Participant manual contains over 300 pages of information and practical examples
- ▶ A participation certificate of 21 CPD (Continuing Professional Development) credits is awarded to the participants
