

PECB Certified ISO 39001 Lead Implementer

Master the implementation and management of Road Traffic Safety Management Systems (RTSMS) based on ISO 39001

Why should you attend?

ISO 39001 Lead Implementer training enables you to develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining a Road Traffic Safety Management System (RTSMS) based on ISO 39001. During this training course, you will also gain a thorough understanding of the best practices of Road Traffic Safety Management Systems to improve efficiency and overall performance of the organization and reduce death rates and serious injuries related to road traffic crashes.

After mastering all the necessary concepts about Road Traffic Safety Management Systems, you can sit for the exam and apply for a "PECB Certified ISO 39001 Lead Implementer" credential. By holding a PECB Lead Implementer Certificate, you will be able to demonstrate that you have the practical knowledge and professional capabilities to implement ISO 39001 in an organization.

Who should attend?

- Managers or consultants involved in Road Traffic Safety Management
- Expert advisors seeking to master the implementation of a Road Traffic Safety Management System
- Individuals responsible for maintaining conformance with RTSMS requirements
- RTSMS team members

Course agenda

Duration: 5 days

Day 1 | Introduction to ISO 39001 and initiation of a RTSMS

- Course objective and structure
- Standard and regulatory framework
- Road Traffic Safety Management System (RTSMS)
- Fundamental principles of road traffic safety
- Initiating the RTSMS implementation
- Understanding the organization and clarifying the road traffic safety objectives

Day 2 | Plan the implementation of a RTSMS

- Analysis of the existing management system
- Leadership and approval of the RTSMS project
- RTSMS scope
- Policies for road traffic safety
- Risk assessment
- RTS Performance Factors

Day 3 | Implementation of a RTSMS

- Definition of the organizational structure of road traffic safety
- Definition of the document management process
- Design of safety controls and drafting of specific policies & procedures
- Communication plan
- Training and awareness plan
- Incident Management
- Operations Management

Day 4 | RTSMS monitoring, continuous improvement and preparation for a certification audit

- Monitoring, measurement, analysis and evaluation
- Internal audit
- Management review
- Treatment of problems and non-conformities
- Continual improvement
- Preparing for the certification audit
- Competence and evaluation of implementers
- Closing the training

Day 5 | Certification Exam

Learning objectives

- Acknowledge the correlation between ISO 39001 and other standards and regulatory frameworks
- Master the concepts, approaches, methods and techniques used for the implementation and effective management of a RTSMS
- Learn how to interpret the ISO 39001 requirements in the specific context of an organization
- Learn how to support an organization to effectively plan, implement, manage, monitor and maintain an RTSMS as specified in ISO 39001
- Acquire the expertise to advise an organization in implementing Road Traffic Safety Management System best practices

Examination

Duration: 3 hours

The “PECB Certified ISO 39001 Lead Implementer” exam fully meets the requirements of the PECB Examination and Certification Programme (ECP). The exam covers the following competency domains:

- Domain 1** | Fundamental principles and concepts of a Road Traffic Safety Management System (RTSMS)
- Domain 2** | Road Traffic Safety Management System (RTSMS)
- Domain 3** | Planning a RTSMS implementation based on ISO 39001
- Domain 4** | Implementing a RTSMS based on ISO 39001
- Domain 5** | Performance evaluation, monitoring and measurement of a RTSMS based on ISO 39001
- Domain 6** | Continual improvement of a RTSMS based on ISO 39001
- Domain 7** | Preparing for a RTSMS certification audit
