

PECB CERTIFIED GENERAL DATA PROTECTION REGULATION

BECOME ACQUAINTED TO LEAD ALL THE PROCESSES NECESSARY TO ADOPT A GENERAL DATA PROTECTION REGULATION (GDPR) IN AN ORGANIZATION

SUMMARY

The PECB Certified Data Protection Officer course enables you to develop the necessary expertise to demonstrate your knowledge, skills and competence, for implementing, managing and aligning a privacy framework based on General Data Protection Regulation requirements.

Participants will be able to understand the gap between the General Data Protection Regulation and the current organizational processes including, policies, procedures, working instructions, etc. in order to associate organizations in the adoption process to the new regulation which will help obstructing them from being prosecuted in case of a breach.

COURSE AGENDA

The following modules will be included in order to be prepared for examination:

- ▶ Privacy Fundamentals
- ▶ European Data Protection Framework
- ▶ International Data Protection Framework
- ▶ Data Protection and Information Technologies
- ▶ Privacy Security
- ▶ Management and Incident Response
- ▶ Information System Audit
- ▶ Privacy Governance

PECB Certified General Data Protection Regulation exam is available in different languages. The candidates who do not pass the exam will be able to retake it for free within 12 months from the initial exam date.

After successfully completing the exam, participants can apply for the credentials of PECB Certified Data Protection Officer

A certificate will be issued to participants who successfully pass the exam and comply with all the other requirements related to the selected credential:
