When Recognition Matters

PECB EVENT IN PORTUGAL

Organizational Resilience & Emergency Management

January 04 to 07, 2017

PECB is honored to invite you to attend the next event which will take place in Sintra, Portugal, from January 04 to 07, 2017, at the Penha Longa Resort. This prestigious event will mark the launch of our newest following courses: PECB Certified ISO 22316 Foundation and PECB Certified ISO 22320 Foundation.

www.pecb.com

JANUARY 04-05

ORGANIZATIONAL RESILIENCE

PECB Certified ISO 22316 Foundation

Resilience enables organizations to anticipate and respond to threats and opportunities, arising from sudden or gradual changes in their internal and external context. Enhancing resilience should be a strategic organizational goal.

Organizational resilience is a relative and dynamic concept rather than a specific activity or fixed state. The factors that enhance an organization's resilience are unique to each organization. Organizations can only be more or less resilient and there is no absolute measure or definitive goal.

This two-day course will enable participants to broaden their knowledge and get involved in managing organizational resilience. During this training the participants will acquire the necessary ability to identify and address vulnerabilities before they have a material impact. Furthermore, they will gain the knowledge to provide an effective approach to integrate existing management disciplines that support organizational resilience.

SCHEDULE

WEDNESDAY

09:00 – 12:30	Fundamental concepts in Organizational Resilience
12:30 – 13:30	Lunch
13:30 – 17:00	Principles, attributes and activities for Organizational Resilience

THURSDAY

09:00 – 12:30	Strategy for Organizational Resilience
12:30 – 13:30	Lunch
13:30 – 17:00	Recovering and restoring organizational capabilities

The course is completed by a one-hour exam on the last day, which is a requirement for the credential of PECB Certified ISO 22316 Foundation course.

JANUARY 06-07

EMERGENCY MANAGEMENT

PECB Certified ISO 22320 Foundation

In cases when significant incidents happen, the importance of an effective response is very important. A key target in public and private sectors is to minimize the effect of the consequences that emerge after natural disasters, uncontrolled or intentional incidents occur; and to enhance their ability to give a proper reaction to the needs of the affected population.

This two-day course will enable participants to broaden their knowledge and get involved in the management of emergency situations. During this training the participants will acquire the necessary knowledge to provide an effective response to an incident according to the established procedures for command and control, traceability and information management of different emergency situations.

SCHEDULE

FRIDAY

09:00 – 12:30	Introduction to Emergency Management
12:30 – 13:30	Lunch
13:30 – 17:00	Preparation, organization and prevention of Incident Response

SATURDAY

09:00 – 12:30	Detection and Prevention Systems
12:30 – 13:30	Lunch
13:30 – 17:00	Recovery and maintenance of Incident Response

The course is completed by a one-hour exam on the last day, which is a requirement for the credential of PECB Certified ISO 22320 Foundation course.
