

The ISO 55001 standard guides businesses to control and manage the life-cycle of an asset. Depending on the type of the asset, the life-cycle of assets goes throughout different stages such as acquisition, construction, operation, and maintenance.

Hence, ISO 55001 can be applied to all sizes or businesses and all types of assets.

Organizations that have adopted ISO 55001 realized huge benefits after its implementation. The standard will help towards the boost of organization's efficiency and effectiveness of the system and most importantly reach objectives by focusing on risk and cost.

A dark, semi-transparent image of two men in business attire (suits and ties) looking at a laptop screen in an office setting. The man on the left is standing and leaning over the man on the right, who is seated at a desk. The background shows office lights and a desk with papers and a pen.

ISO 55001 MANAGEMENT SYSTEMS CERTIFICATION

ISO 55001 certification (also known as “registration”), is a third-party audit performed by a certification body such as PECB who, upon verification that an organization is in compliance with the requirements of ISO 55001, will issue an ISO 55001 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification performed on a triennial basis.

Benefits of ISO 55001 certification to your organization:

- Improved performance of an asset management and control of its life-cycle
- Reduced risks and costs related to assets ownership
- Identifies and encourages more efficient and time saving processes
- Provides and maintains business growth
- Improved organizations performance
- Improved quality of products and/or services
- Planned long term investment opportunities
- Improved communication and relation among departments
- Improves the reputation of the organization

Benefits of ISO 55001 certification to your customers:

- Improved quality and services sustainability
- Managed risk
- Reduces costs
- Increased credibility
- Fewer returned products and complaints

PECB is a certification body for persons, management systems, and products on a wide range of international standards. As a global provider of training, examination, audit, and certification services, PECB offers its expertise on multiple fields, including but not limited to Asset Management.

We help organizations to show commitment and competence with internationally recognized standards by providing this assurance through the education, evaluation and certification against rigorous, internationally recognized competence requirements. With a global coverage of more than 900 partners in over 150 countries worldwide, our mission is to provide our clients comprehensive services that inspire trust, continual improvement, demonstrate recognition, and benefit society as a whole.

To find out how you can obtain the ISO 55001 Certification, contact ms@pecb.com

RE-CERTIFICATION AUDIT
Within two months before the triennial certificate expiration
