

# PECB Certified ISO/IEC 27701 Lead Implementer eLearning Training Course

Master the implementation and management of a privacy information management system (PIMS) based on ISO/IEC 27701:2025.

As the world is moving faster than ever, technological developments have rapidly evolved and are redefining, among others, the way we live, learn, and teach. This expansive nature of the internet and technology demands new ways of adapting to this new virtual environment for all of us. This new world has given birth to a new form of studying that is both efficient and of global reach: eLearning.

The ISO/IEC 27701 Lead Implementer eLearning training course is designed to help you gain a theoretical and practical understanding of the implementation and management of a Privacy Information Management System (PIMS) based on the requirements and guidance of ISO/IEC 27701. This would help organizations manage privacy risks, protect personally identifiable information (PII), and support compliance with applicable privacy regulations.

## Meet the Trainers

Our eLearning training courses are delivered by experienced trainers from all around the world. Each course is divided into video sections and subsections. Videos contain animations to support what the trainer is lecturing — the animations correspond to the sections provided in the traditional mode of training.

To keep our candidates engaged, we have incorporated quizzes into our eLearning training courses.

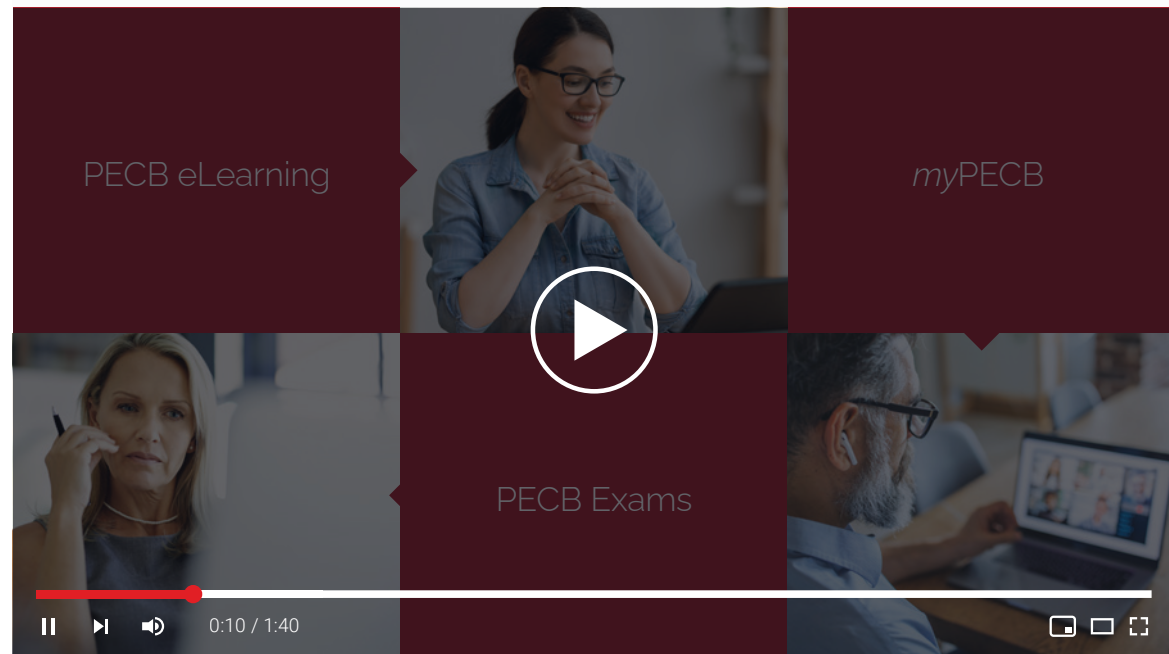

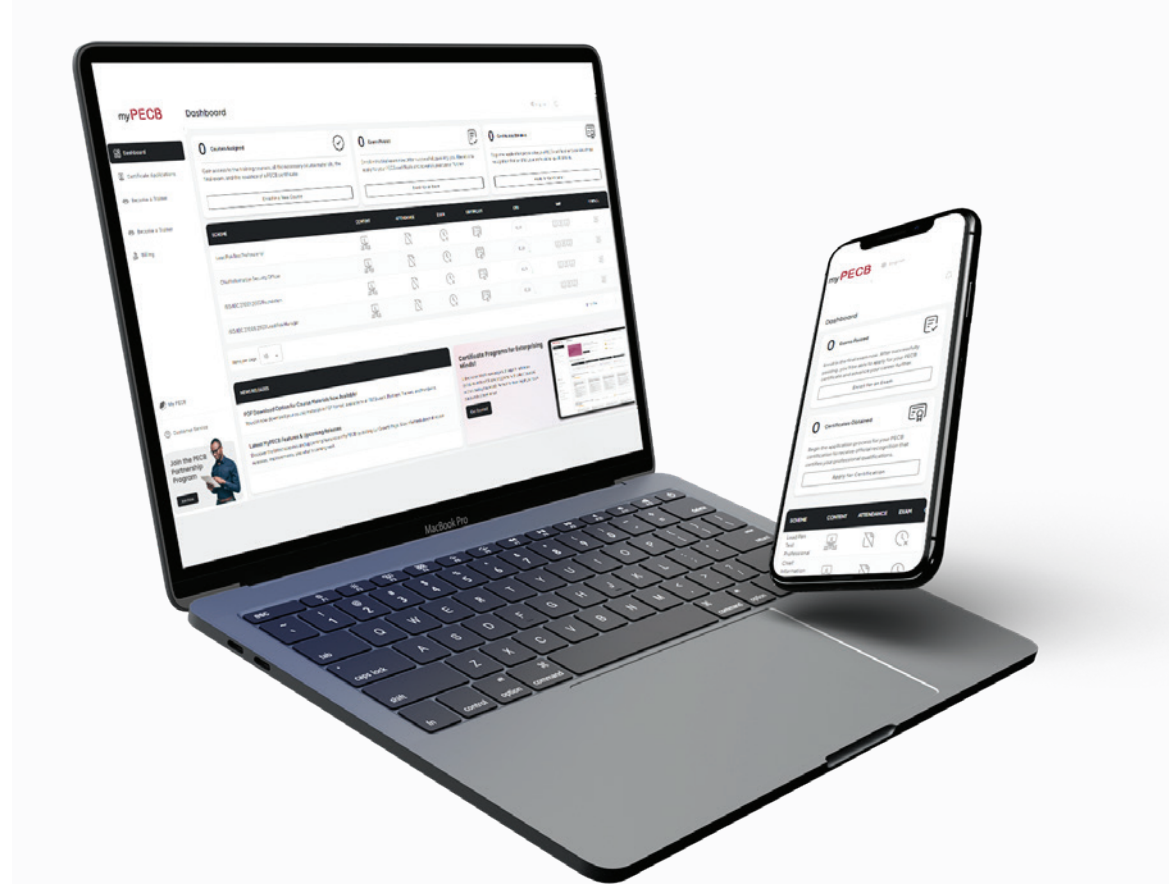

# How does the ISO/IEC 27701 Lead Implementer eLearning experience look like?

Our ISO/IEC 27701 Lead Implementer eLearning training course is delivered on *myPECB* platform. Once logged on using your PECB account, you will be able to browse through the sections of the ISO/IEC 27701 Lead Implementer eLearning course.

In addition to having the training course content in video format, you will also be able to access the regular training course materials format structured in different training course days with the additional files available in an editable format (depending on the training course, the case study, exercises, and exercises correction key files will also be available).

In addition to the lectures and the training course materials, quizzes have been incorporated into *myPECB* to ensure that our training courses are as interactive as possible.

- ✓ Take the training course
- ✓ Access the materials on *myPECB*
- ✓ Enter the exam at your most convenient date, time, and location via PECB Exams

# How can you benefit from the PECB eLearning experience?

Our eLearning training courses have been designed to meet the needs of diverse learners who have different learning preferences and/or limited time to attend a training course session.

Here are some of the main benefits of the PECB eLearning experience:

- ✓ The entire training course and examination is carried out electronically (hence the “e” in eLearning), so all you need in order to access these training courses is a device (e.g., computer, tablet, smartphone), and internet access.
- ✓ Having access to the training courses 24/7 enables you to dictate the pace of your study. You do not have to worry about schedules, traveling, and accommodation, or having to take days off from work.
- ✓ The unlimited access allows you to go back to any section of the training course as you need them.
- ✓ Every training course consists of several video sections. This was done with the sole purpose of making the information easy to receive and process.

Simply put, the eLearning training courses are a convenient way to effectively enhance your professional skills.

# Why should you attend?

Privacy risks and data protection challenges continue to increase as organizations collect, process, and manage personally identifiable information across different systems, jurisdictions, and business activities. The best way to address these challenges is through the proper implementation and management of privacy controls, privacy principles, and best practices. Privacy protection is also a key expectation and requirement of customers, regulators, business partners, and other interested parties.

This eLearning training course is designed to prepare you for implementing a Privacy Information Management System (PIMS) based on the requirements and guidance of ISO/IEC 27701. It aims to provide a comprehensive understanding of the best practices for establishing, implementing, maintaining, and continually improving a PIMS, helping organizations manage privacy risks and support compliance with applicable data protection requirements.

After attending the eLearning training course, you can take the exam. If you successfully pass it, you can apply for a “PECB Certified ISO/IEC 27701 Lead Implementer” credential, which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27701.

## Who should attend?

- ✓ Managers and consultants involved in privacy and data management
- ✓ Expert advisors seeking to master the implementation of a PIMS within organizations
- ✓ Individuals responsible for maintaining conformance with data privacy requirements
- ✓ PIMS project implementation team members

# Training course structure

## Section 1

- ✓ Training course objectives and structure

## Section 2

- ✓ Standards and regulatory frameworks

## Section 3

- ✓ Privacy information management system (PIMS)

## Section 4

- ✓ Fundamental concepts and principles of information security and privacy

## Section 5

- ✓ Initiation of the PIMS implementation

## Section 6

- ✓ Understanding the organization and its context

## Section 7

- ✓ PIMS scope

## Section 8

- ✓ Leadership and commitment

## Section 9

- ✓ Organizational structure

## Section 10

- ✓ Gap analysis

## Section 11

- ✓ Privacy policy

## Section 12

- ✓ Privacy risk assessment and treatment process

## Section 13

- ✓ Statement of applicability

## Section 14

- ✓ Privacy objectives

## Section 15

- ✓ Competence and awareness

## Section 16

- ✓ Communication

## Section 17

- ✓ Management of documented information

## Section 18

- ✓ Selection and design of controls

## Section 19

- ✓ Implementation of controls

## Section 20

- ✓ Monitoring, measurement, analysis, and evaluation

## Section 21

- ✓ Internal audit

## Section 22

- ✓ Management review

## Section 23

- ✓ Treatment of nonconformities

## Section 24

- ✓ Continual improvement

## Section 25

- ✓ Preparation for the certification audit

## Section 26

- ✓ Closing of the training course

# Learning Objectives

- ✓ Explain the fundamental concepts and principles of a privacy information management system (PIMS) based on ISO/IEC 27701
- ✓ Interpret the ISO/IEC 27701 requirements for a PIMS from the perspective of an implementer
- ✓ Initiate and plan the implementation of a PIMS based on ISO/IEC 27701, by utilizing PECB's IMS2 Methodology and other best practices
- ✓ Apply best practices to support the ongoing effectiveness and improvement of the PIMS based on ISO/IEC 27701
- ✓ Interpret the requirements for an ISO/IEC 27701 certification audit

# Examination

The "PECB ISO/IEC 27701 Lead Implementer" exam fully meets the PECB Examination and Certification Program (ECP) requirements. It covers the following competency domains:

**Domain 1:** Fundamental principles and concepts of a privacy information management system

**Domain 2:** Initiation of the PIMS implementation

**Domain 3:** Planning of a PIMS implementation based on ISO/IEC 27701

**Domain 4:** Implementation of a PIMS based on ISO/IEC 27701

**Domain 5:** Monitoring and measurement of a PIMS based on ISO/IEC 27701

**Domain 6:** Continual improvement of a PIMS based on ISO/IEC 27701

**Domain 7:** Preparation for a PIMS certification audit

*For specific information about the exam type, languages available, and other details, please visit the [List of PECB Exams and the Examination Rules and Policies](#).*

# Certification

After passing the exam, you can apply for one of the credentials in the table below. You will receive a certificate once you fulfill all the requirements of the selected credential. The certification requirements for ISO/IEC 27701 Lead Implementer are:

Credential	Exam	Professional experience	PIMS project experience	Other requirements
ISO/IEC 27701 Provisional Implementer	PECB ISO/IEC 27701 Lead Implementer exam	None	None	Signing the PECB Code of Ethics
ISO/IEC 27701 Implementer		2 years (1 in privacy management)	At least 200 hours	
ISO/IEC 27701 Lead Implementer		5 years (2 in privacy management)	At least 300 hours	
ISO/IEC 27701 Senior Lead Implementer		10 years (7 in privacy management)	At least 1,000 hours	

## General information

- ✓ Certification and examination fees are included in the price of the training course.
- ✓ Participants will receive more than 450 pages of comprehensive training materials, including practical examples, exercises, and quizzes.
- ✓ Participants who have attended the training course will receive an attestation of course completion worth 31 CPD (Continuing Professional Development) credits.
- ✓ Candidates who have completed the training course with one of our partners and failed the first exam attempt are eligible to retake the exam for free within a 12-month period from the course completion date, because the fee paid for the training course includes a first exam attempt and one retake. Otherwise, retake fees apply.

**Note:** PECB certified individuals who possess Lead Implementer and Lead Auditor credentials are qualified for the respective PECB Master credential, given that they have taken four additional Foundation exams related to this scheme.
