ABOUT PECB

PECB is an accredited certification body which provides education and certification under ISO/IEC 17024 for individuals in a wide range of disciplines. Our accreditations, among others, include IAS and UKAS accreditation. For more information, please refer to this link.

As a global provider of education, certification, and certificate programs, PECB's expertise is in multiple fields, with a special emphasis in Information Security and Resilience, GRC, Privacy, and Digital Transformation, and Quality, Management, and Sustainability.

Through our presence in more than 150 countries, we help professionals demonstrate their competence in various areas of expertise by providing valuable evaluation, certification, and certificate programs against internationally recognized standards. Our mission is to provide our clients with comprehensive examination, certification, and certificate program services that inspire trust and benefit the society as a whole.

OUR KEY OBJECTIVES ARE:

1. Establishing the minimum requirements necessary to certify professionals and to grant designations
2. Reviewing and verifying the qualifications of individuals to ensure they are eligible for certification
3. Maintaining and continually improving the evaluation process for certifying individuals
4. Certifying qualified individuals, granting designations and maintaining respective directories
5. Establishing requirements for the periodic renewal of certifications and ensuring that the certified individuals are complying with those requirements
6. Ascertaining that PECB professionals meet ethical standards in their professional practice
7. Representing our stakeholders in matters of common interest
8. Promoting the benefits of certification and certificate programs to professionals, businesses, governments, and the public
