Introduction to the ISO 37001 Foundation Certificate Program

ISO 37001 specifies the requirements for establishing, implementing, maintaining, and continually improving an anti-bribery management system (ABMS).

Purpose and scope

This training course is designed to help the participants understand the principles of anti-bribery management and the requirements for an anti-bribery management system based on ISO 37001:2016. Furthermore, the “ISO 37001 Foundation” certificate aims to demonstrate that individuals obtaining this certificate are acquainted with ISO 37001 requirements for implementing and managing an ABMS.

Upon successful completion of this training course, the participants will be able to:

1. Describe the anti-bribery management concepts, principles, and definitions
2. Explain the main ISO 37001 requirements for an anti-bribery management system
3. Identify potential actions and approaches that organizations can use to achieve conformity to ISO 37001

The ISO 37001 Foundation certificate is intended for:

This document specifies the PECB ISO 37001 Foundation Certificate Program in compliance with ASTM E2659. This candidate handbook contains information about the process by which candidates may earn their credentials. It is very important that you read all the information included in this candidate handbook before completing and submitting your application.
