ABOUT PECB

Professional Evaluation and Certification Board (PECB) is a personnel certification body for a wide range of professional credentials, including ISO 9001, ISO 13053, ISO 13485, ISO 14001, ISO 17025, OHSAS 18001, ISO 20000, ISO 20121, ISO 21500, ISO 22000, ISO 22301, ISO 24762, ISO 26000, ISO 27001, ISO 27002, ISO 27005, ISO 27034, ISO 28000, ISO 29001, ISO 31000, Risk assesment with the MEHARI method, Risk assesment with the OCTAVE method, Risk assesment with the EBIOS method, ISO 38500, ISO 39001, ISO 50001 and Certified Lead Forensics Examiner.

PECB has earned a reputation for integrity, value and best practice by providing this assurance through the evaluation and certification of professionals against rigorous, internationally recognized competence requirements.

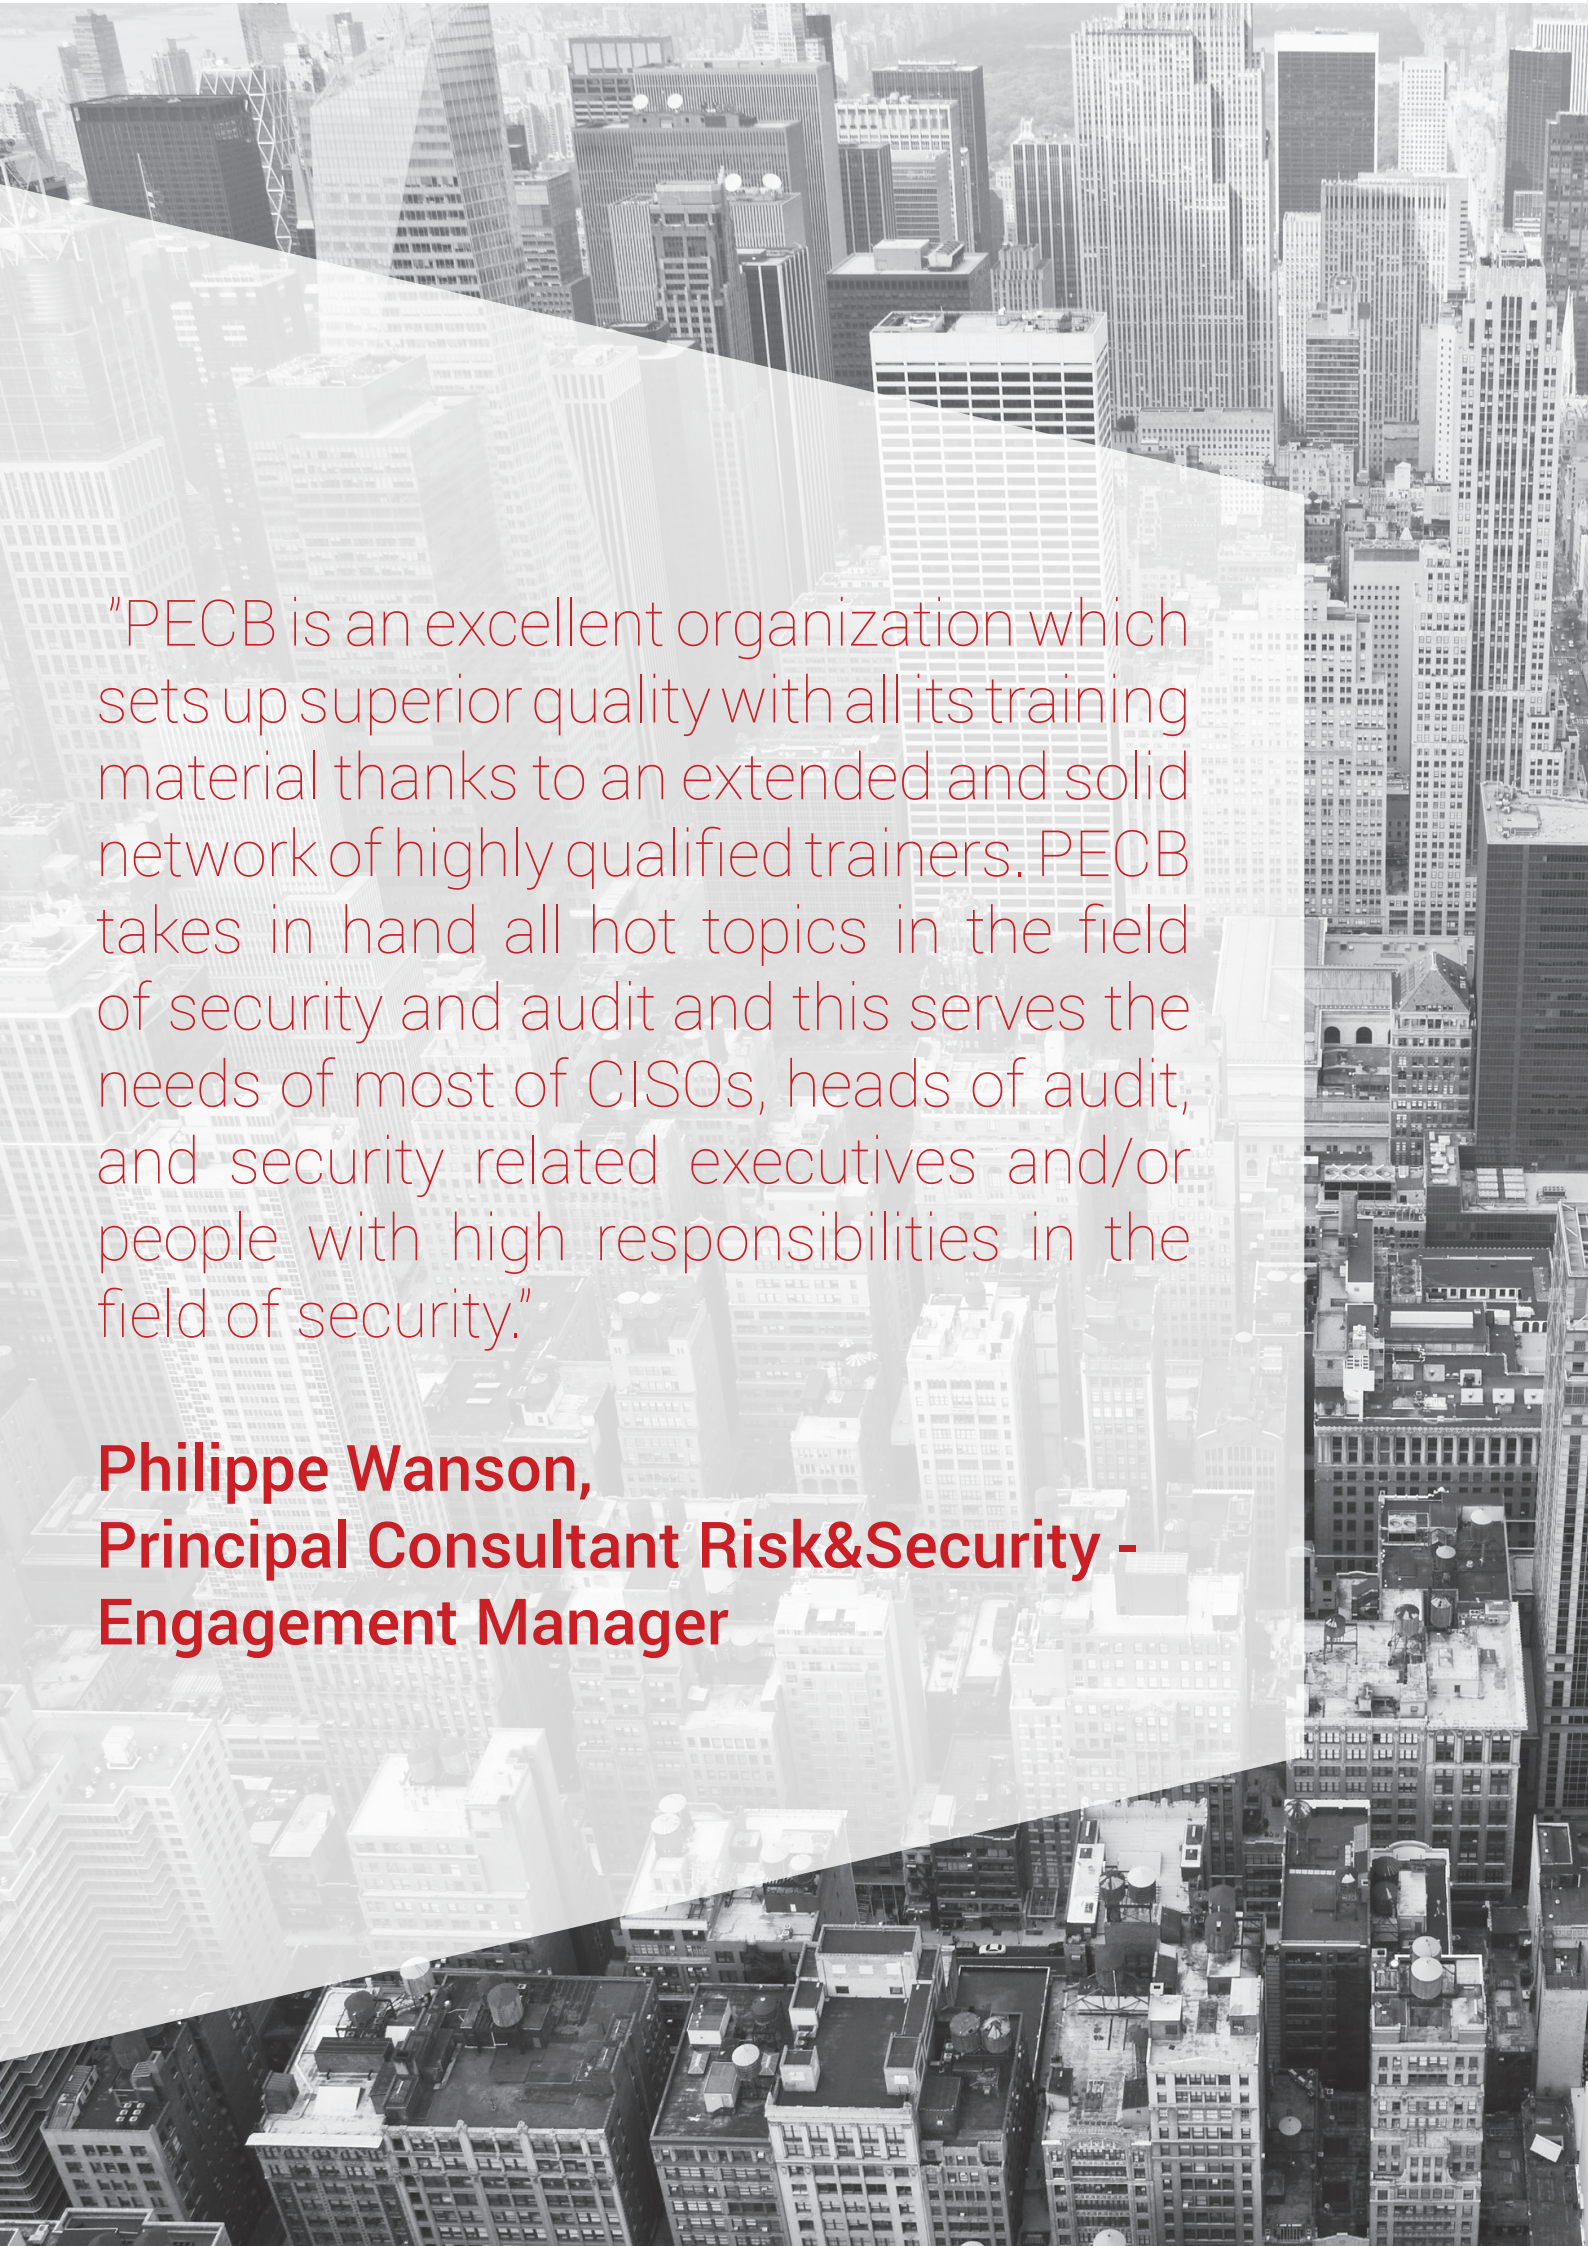

Our mission is to provide our clients comprehensive personnel examination and certification services. Certification represents the intersection of protection of the public, fairness to candidates, and often, various interests of the profession. Although these may appear to be competing interests, a well-designed certification program will be most effective in meeting these interests when its resources are deployed to enhance validity and reliability. The guidance that follows in our Quality Manual is intended to ensure that PECB develops, maintains and improves a high quality recognized certification program.

OUR ACCREDITATION

www.pecb.com/accreditation

PECB is accredited by ANSI under ISO/IEC 17024, Conformity assessment-General requirements for bodies operating certification of persons. Being accredited by one of the toughest and most reputable accreditation bodies in the world gives us global recognition. Currently PECB has thirty one (31) accredited certification schemes and is the first and the only certification body to be accredited for all main ISO Management Systems related certifications. ANSI accreditation validates the integrity of the certification process based on an international standard. Several US government and international agencies rely on ANSI accreditation in order to ensure the quality of personnel certification.

"PECB is an excellent organization which sets up superior quality with all its training material thanks to an extended and solid network of highly qualified trainers. PECB takes in hand all hot topics in the field of security and audit and this serves the needs of most of CISOs, heads of audit, and security related executives and/or people with high responsibilities in the field of security."

**Philippe Wanson,
Principal Consultant Risk&Security -
Engagement Manager**

PECB

CODE OF ETHICS

Adherence of professionals to PECB code of ethics is a voluntary engagement. However, if a member does not follow this code by engaging in gross misconduct, PECB membership may be terminated and certifications revoked. Not only is it important for PECB certified professionals to adhere to the principles expressed in this Code, each member should encourage and support adherence by other members.

PECB professionals will:

1. Conduct themselves professionally, with honesty, accuracy, fairness, responsibility and independence.
2. Act at all times solely in the best interest of their employers, their clients, the public, and the profession as well as in accordance with professional standards and applicable techniques while performing professional services.
3. Maintain the competency in their respective fields and strive to constantly improve their professional skills.
4. Offer only professional services for which they are qualified to perform, and adequately inform clients and consumers about the nature of proposed services, including any relevant concerns or risks.
5. Inform each employer or client of any business interest or affiliation which might influence their judgment or impair their fairness.
6. Treat in a confidential and private manner the information acquired during professional and business dealings of any present or former employer or client without its proper consent.
7. Comply with all the laws and regulations of the jurisdictions where professional activities are conducted.
8. Respect the intellectual property and contributions of others.
9. Not intentionally communicate false or falsified information that may compromise the integrity of the evaluation process of a candidate for a professional designation.
10. Not act in any manner that could compromise the reputation of PECB or its certification programs.

“Relativity applies to physics, not ethics.”

Albert Einstein

PECB CERTIFICATION PROCESS

DECIDE WHICH CERTIFICATION IS RIGHT FOR YOU

Each PECB certification has specific education and experience requirements. To determine which certification product is right for you, verify all eligibility requirements for the different ISO 27001 certifications and your professional needs.

1

PREPARE FOR THE EXAM

All certification candidates are responsible for their own study and preparation for the examination. No specific set of courses or curriculum of study is required as part of the certification process. Likewise, the completion of a recognized PECB course or program of study will significantly enhance your chance of passing a PECB certification examination. You can verify the list of recognized organization that offers PECB official training sessions.

2

APPLY AND SCHEDULE THE EXAM

Candidates must complete the easy and secure online application. PECB's online application is available at www.location.com. Candidates will register for a password-protected account where they can then create, manage, update, and submit their application. Applicants can pay the application fees online and upload all required supporting documents to PECB. Applicants will also have the option of mailing the payment (checks) but however, this will result in delays of the application process.

Applicants will then be able to select a date and location for their certification exam. Dates and location can be found at www.location.com. You must register at least fourteen (14) days before the exam date.

3

TAKE THE EXAM

Candidates will be required to arrive at least 30 minutes before the beginning of the certification exam. Candidates arriving late will not be given additional time to compensate for the late arrival and may be denied entry to the examination room. All candidates will need to present a valid identity card such as a driver's license to the invigilator and the exam confirmation letter. The duration of the exam varies according to the type of examination taken (see description of the different exams for more details).

4

RECEIVE YOUR EXAM RESULTS

It takes 4 to 6 weeks for participants to receive their results. All results are sent via email. The examination results will not include the exact grade that you had, only a mention of pass or fail. In the case of a failure, the results will be accompanied with the list of domains in which you had a mark lower than the passing grade to provide guidance to prepare yourself to retake the exam.

5

APPLY FOR CERTIFICATION

All participants who successfully pass their certification exam (or an equivalent accepted by PECB) are entitled to apply for the PECB credentials they were examined for. Specific educational and professional requirements may be needed for you to be PECB certified. Candidates will need to fill out the online certification application form (that can be accessed via their PECB online profile), including contact details of references who will be contacted to validate the candidate's professional experience.

Once PECB will have validated that you fulfill all certification requirements, you will be informed by e-mail of our decision and you will receive your certificate by e-mail in electronic format.

6

MAINTAIN YOUR CERTIFICATION

The PECB certifications are valid for three years. To maintain his/her certification, the applicant must demonstrate every year that he/she is still performing tasks that are related to the certification. Every year, PECB certified professionals will need to provide PECB with the number of hours of auditing and/or implementation related tasks they have performed with the contact details of individuals who can validate these tasks, as well as paying their yearly certification maintenance fees. PECB will randomly select some referrals to contact to validate this experience and education.

PECB CERTIFIED ISO 14001 FOUNDATION

GET FAMILIARIZED WITH THE BEST PRACTICES FOR IMPLEMENTING AND MANAGING AN ENVIRONMENTAL MANAGEMENT SYSTEM (EMS) BASED ON ISO 14001

SUMMARY

This course enables the participants to learn about the best practices for implementing and managing an Environmental Management System (EMS) as specified in ISO 14001. This training also helps to understand how ISO 14001 is linked with other management systems.

COURSE AGENDA

Day 1	Introduction to Environmental Management System (EMS) concepts as required by ISO 14001
Day 2	Implementing an Environmental Management System and Certification Exam PECB Certified ISO 14001 Foundation exam is available in different languages. The candidates who do not pass the exam will be able to retake it for free within 12 months from the initial exam date.

A certificate of PECB Certified ISO 14001 Foundation will be issued to participants who successfully pass the ISO 14001 Foundation Exam:

- ▶ No experience requirements
- ▶ No annual maintenance fee
- ▶ No certification fee
- ▶ Certified for life

GENERAL INFORMATION

- ▶ Certification fees are included in the exam price
- ▶ Participant manual contains more than 200 pages of information and practical examples
- ▶ A participation 14 CPD (Continuing Professional Education) certificate will be issued to the participants

CERTIFIED ISO 14001 LEAD AUDITOR

ANSI Accredited Program
PERSONNEL CERTIFICATION
#1003
www.pecb.com/accreditation

MASTERING THE AUDIT OF AN ENVIRONMENTAL MANAGEMENT SYSTEM (EMS) BASED ON ISO 14001, IN COMPLIANCE WITH THE REQUIREMENTS OF ISO 19011 AND ISO 17021

SUMMARY

This five-day intensive course enables the participants to develop the necessary expertise to audit an Environmental Management System (EMS) based on ISO 14001 and to manage a team of auditors by applying widely recognized audit principles, procedures and techniques.

COURSE AGENDA

Day 1	Introduction to Environmental Management System (EMS) concepts as required by ISO 14001
Day 2	Planning and initiating an ISO 14001 Audit
Day 3	Conducting an ISO 14001 audit
Day 4	Concluding and ensuring the follow-up of an ISO 14001 audit
Day 5	Certification Exam PECB Certified ISO 14001 Lead Auditor exam is available in different languages. The candidates who do not pass the exam will be able to retake it for free within 12 months from the initial exam date.

After successfully completing the exam, participants can apply for the credentials of PECB Certified ISO 14001 Lead Auditor.

GENERAL INFORMATION

- ▶ Certification fees are included in the exam price
- ▶ Participant manual contains over 450 pages of information and practical examples
- ▶ A participation of 31 CPD (Continuing Professional Development) certificate will be issued to participants
