WHY RECOGNITION MATTERS?

It is highly important to be fully equipped with the right knowledge, expertise, and resources to provide your customers with satisfactory products and/or services. But what is more important is the recognition of the dedication and hard work your organization invests day-in and day-out to not only meet customer expectations, but also exceed them.

PECB is ready to be part of this vigorous journey and help organizations show their full commitment to deliver quality products and/or services to consumers worldwide. We are highly focused on providing audits and certifications of management systems to prove to the customers that the policies, processes and procedures used and operated day-to-day have the capability to achieve all company objectives.

Receiving an internationally recognized certificate establishes your organization as an adaptive and flexible organization that is in pace with global best practices and regulatory frameworks. At the same time, embedding trust in your customers' perception of the product and/or services your organization offers.

Placing your organization with a trusted image will have a multifaceted impact on your business, ultimately cascading to an increase in market share and recognition.

ISO certification is a very crucial part of the business world today, and we give your organization the opportunity to grow in proficiency by implementing management system that enables you to achieve your mission at an affordable price.

To PECB, recognition matters because together with greatness and effort is acknowledgment.

Beyond excellence, it is recognition that matters.

ABOUT US

PECB is a certification body for persons, management systems, and products on a wide range of international standards. As a global provider of training, examination, audit, and certification services, PECB offers its expertise on multiple fields.

We help organizations to show commitment and competence with internationally recognized standards by providing this assurance through the education, evaluation and certification against rigorous, internationally recognized competence requirements. With a global coverage of more than 700 partners in over 150 countries worldwide, our mission is to provide our clients comprehensive services that inspire trust, continual improvement, demonstrate recognition, and benefit society as a whole.

OUR PRINCIPAL OBJECTIVES AND ACTIVITIES ARE

- 1 Establishing the minimum requirements necessary to certify professionals, organizations and products
- 2 Reviewing and verifying the qualifications of applicants for eligibility to be considered for the certification evaluation
- 3 Developing and maintaining reliable, valid, and current certification evaluations
- 4 Granting certificates to qualified candidates, organizations and products; maintaining records and publishing a directory of the holders of valid certificates
- 5 Establishing requirements for the periodic renewal of certification and determining compliance with those requirements
- 6 Ascertaining that our clients meet ethical standards in their professional practice
- 7 Representing its members, where appropriate, in matters of common interest
- 8 Promoting the benefits of certification to organizations, employers, public officials, practitioners in related fields, and the public

WHY CHOOSE PECB AS A THIRD PARTY CERTIFICATION BODY?

It is in our mission to contribute to the standardization and optimization of management systems, and make them available to the whole world. Selecting the right organization to offer eminent auditing and management systems certification can be a great challenge.

However, by choosing a certification body that is accredited such as PECB, it proves that we comply with the best practices. It is important for us to build trust and bring value to management system certification, so companies can meet customer expectations, as well as applicable regulatory requirements.

After certifying thousands of professionals all across the world, we want to leave out footprints in helping organizations to be reliable and competent with proven accountability.

Our Values

Define us

Here at PECB, we are dedicated to provide our clients with best practices and internationally recognized standards that are accessible, disseminated, known and used. Our services are always offered with integrity, professionalism and fairness to individuals and organizations.

Our Partners

Embrace us

We have a global coverage with over 700 partners that will enable your organization to gain the widest possible market and industry view. Our trusted partners acquire professional practical experience with expert skills from auditing to training to extensive involvement with various organizations in the implementation of fundamental management systems.

Our Auditors

Reflect us

Our Certified MS Auditors hold a certification that is the benchmark for management system audits which designate that a PECB Certified Auditor is committed to work with professionalism, and is using best practices by performing continual development. In addition, our auditors give you proven ways of understanding and measuring excellence so you can promote it to your stakeholders.

QUALITY MANAGEMENT SYSTEMS

Quality in all forms, from products manufactured to customer services, is what makes your company stand out of the crowd, grow into a value, and be **bold**.

Implementing Quality Management System standards and getting certified by an independent third party such as PECB will demonstrate that your organization is compliant and committed professionally in this area.

Our Quality Management Certifications include the following standards:

- ISO 9001 – Quality Management Systems
- ISO 13485 – Medical Devices Quality Management Systems
- ISO 50001 – Energy Management Systems

Certifying your organization against these standards gives an essential assurance to your clients, which is that the quality of your products and services is top-notch.

ISO 9001:2015 - QUALITY MANAGEMENT SYSTEMS CERTIFICATION

The ISO 9001 Quality Management standard helps organizations to demonstrate commitment to meet customer and stakeholder satisfaction by implementing the highest standards of quality. Organizations that have adopted the principles of ISO 9001 often realize considerable improvements in their day-to-day operations, with business gains.

The new ISO 9001:2015 Certification is not just suitable for large organizations but also small businesses that will benefit from adopting efficient Quality Management System that will save time and cost, improve efficiency and improve customer relationships.

ACHIEVE CUSTOMER SATISFACTION AND CONTINUAL IMPROVEMENT PRACTICES WITH THE ISO 9001 CERTIFICATION

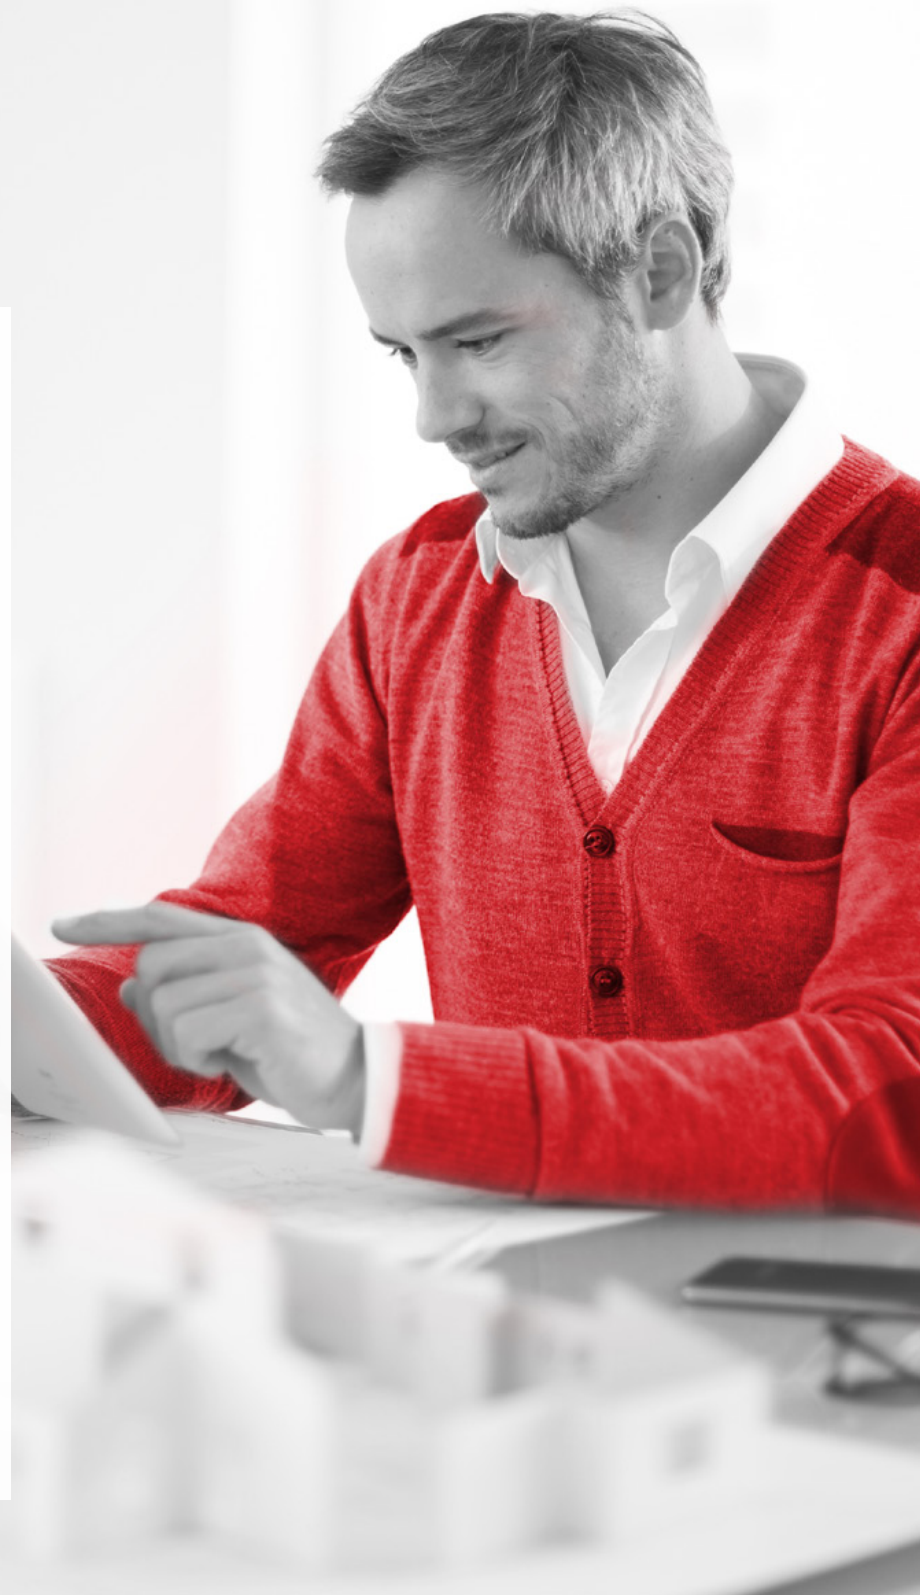

BENEFITS OF ISO 9001 CERTIFICATION

- Improved performance of affected processes
- Provides senior management with an efficient management process
- Demonstrated compliance with customer, regulatory and/or other requirements
- Improved quality and service
- Communicates a positive message to staff and customers
- Identifies and encourages more efficient and time saving processes
- Reduced operating costs related to waste, rework and non-value added activities
- Provides continual assessment and improvement
- Increased market share as a certified organization
- Maintaining satisfied customers and gaining potential customers
- Puts forward true value through enhancement of marketing opportunities

NOT SURE YOU ARE READY FOR ISO 9001 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 9001 audit and certification.

- ISO 9001 Introduction (1 day)
- ISO 9001 Foundation (2 days)
- ISO 9001:2015 Transition (2 days)
- ISO 9001 Lead Implementer (5 days)
- ISO 9001 Lead Auditor (5 days)

ISO 13485 - MEDICAL DEVICES MANAGEMENT SYSTEMS CERTIFICATION

ISO 13485 Medical Devices Management standard specifies requirements for a quality management system where an organization needs to demonstrate its ability to provide Medical Devices and related services that consistently meet customer requirements and regulatory requirements applicable to medical devices and related services.

Organizations involved in medical device industry see ISO 13485 as the de facto standard towards regulatory compliance. Obtaining a PECB Certification on this standard is a proof that your company maintains regulatory compliance to ensure safety of patients, users and other persons.

**MEET CUSTOMER EXPECTATIONS BY CONTINUAL IMPROVEMENT PRACTICES WITH THE
ISO 13485 CERTIFICATION**

BENEFITS OF ISO 13485 CERTIFICATION

- Improved legal and regulatory or contractual requirements compliance
- ISO 13485 Quality Management System (QMS) is very close to the Food and Drug Administration's (FDA) QSR standards.
- Assistance in monitoring supply chain effectiveness
- Increased profit margins
- Improved product safety
- Increased efficiency
- Proactive error detection and prevention
- Cost savings
- More effective risk management
- Increased likelihood of meeting customer requirements
- Safe and effective medical devices

NOT SURE YOU ARE READY FOR ISO 13485 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 13485 audit and certification.

- ISO 13485 Introduction (1 day)
- ISO 13485 Foundation (2 days)
- ISO 13485 Lead Implementer (5 days)
- ISO 13485 Lead Auditor (5 days)

ISO 50001 - ENERGY MANAGEMENT SYSTEMS CERTIFICATION

ISO 50001 is a management system that helps you improve the energy performance in your business, and use the energy more efficiently. Thus, the objective of the ISO 50001 Energy Management standard is to cut energy costs while improving business sustainability.

Companies that have met the requirements of this standard have managed to improve quality and environmental management. Even though the ISO 50001 is not obligatory, organizations worldwide are facing a high number of benefits by obtaining this certification.

**IMPROVE YOUR ORGANIZATION'S ENERGY PERFORMANCE AND INCREASE EFFICIENCY
WITH THE ISO 50001 CERTIFICATION**

BENEFITS OF ISO 50001 CERTIFICATION

- Reduced carbon footprint and greenhouse-gas emissions
- Meet mandatory energy efficiency goals or legislations
- In some countries mandatory if you want to tender for some public sector work
- Reduces energy costs
- Increases credibility intended for customers and stakeholders
- More effective risk management
- Helps manage in sink decision making procedure with all staff members
- Develops a well-managed right the first time approach
- Provides senior management with an efficient management process
- Demonstrated compliance with customer, regulatory and/or other requirements
- Sets out areas of responsibility across the organization
- Improves and communicates a positive message to staff and customers
- Provides continual assessment and improvement

NOT SURE YOU ARE READY FOR ISO 50001 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 50001 audit and certification.

- ISO 50001 Introduction (1 day)
- ISO 50001 Foundation (2 days)
- ISO 50001 Lead Implementer (5 days)
- ISO 50001 Lead Auditor (5 days)

HEALTH, SAFETY, AND ENVIRONMENT

Health, Safety, and Environmental (HSE) management has two general objectives: prevention of incidents or accidents that might result from abnormal operating conditions on the one hand, and reduction of adverse effects that result from normal operating conditions on the other hand. An important part of achieving this is embracing and fulfilling the requirements of the HSE standards.

HSE standards and the certification against them will demonstrate that your organization is compliant and committed professionally in this area and that you are aware of your environmental obligations, and are looking to reduce your environmental impact.

Our Health, Safety, and Environmental Management Certifications include the following standards:

- ISO 14001 – Environmental Management Systems
- ISO 22000 – Food Safety Management Systems
- OHSAS 18001 – Occupational Health and Safety Management Systems

Certifying your organization against these standards demonstrates your organizational dedication and proficiency in creating a safe and healthy environment.

ISO 14001:2015 - ENVIRONMENTAL MANAGEMENT SYSTEMS CERTIFICATION

ISO 14001 sets out the criteria for an Environmental Management System (EMS). It does not state requirements for environmental performance, but sets out a framework that your company can follow in order to benefit the environment and also improve efficiency by reducing costs and the environmental impact of your organization. With the new ISO 14001:2015 standard, organizations will not only improve their environmental management, but will follow the latest requirements in the industry.

ISO 14001 certification can be used by any organization that wants to stand out from the competition, drive down costs, validate its improvement of resource efficiency, and waste reduction.

VALIDATE YOUR ORGANIZATION'S ENVIRONMENTAL RESPONSIBILITY WITH THE ISO 14001 CERTIFICATION

BENEFITS OF ISO 14001 CERTIFICATION

- Improved performance of affected process
- Develops the corporate image and credibility
- Quantifies, monitors and controls the impact of operations on the environment, now and in the future
- Ensures legislative awareness and compliance
- Improves environmental performance of supply chain
- Protects the company, assets, shareholders and directors
- Grows your access to business partners and potential customers
- Averts pollution and reduces waste,
- Responds to pressure from customers and shareholder
- Reduced customer audits
- Reassures customers who take an active interest in environmental performance that they are working with a company which promotes a shared environmental ethics

NOT SURE YOU ARE READY FOR ISO 14001 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 14001 audit and certification.

- ISO 14001 Introduction (1 day)
- ISO 14001 Foundation (2 days)
- ISO 14001:2015 Transition (2 days)
- ISO 14001 Lead Implementer (5 days)
- ISO 14001 Lead Auditor (5 days)

ISO 22000 - FOOD SAFETY MANAGEMENT SYSTEMS CERTIFICATION

The ISO 22000 Food Safety Management standard is focused on the development, implementation and improvement of a food safety management system. Food safety is a joint responsibility of all parties participating in the food chain. Therefore, it makes good scientific sense for those who are involved in food processing, manufacturing, and distribution to adopt and implement the ISO 22000.

Being certified as an ISO 22000 business helps you to gain customer trust by successfully implementing the food safety management system requirements.

INCREASE CUSTOMER CONFIDENCE AND TRUST WITH THE ISO 22000 FOOD SAFETY CERTIFICATION

BENEFITS OF ISO 22000 CERTIFICATION

- Updates the food safety management system
- Provides a framework for management commitment, communication with suppliers and customers, and continuous improvement
- Maintenance of the food safety management system
- Engagement of HACCP and other preventive plans that ensure food safety
- Commitment to customer satisfaction
- Improves the reputation of the company
- Alignment with other internationally acknowledged standards
- Proves commitment to food safety
- Helps minimize food safety risks
- Increases transparency in food safety responsibility
- Ensures quality, safety and reliability assurance

NOT SURE YOU ARE READY FOR ISO 22000 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 22000 audit and certification.

- ISO 22000 Introduction (1 day)
- ISO 22000 Foundation (2 days)
- ISO 22000 Lead Implementer (5 days)
- ISO 22000 Lead Auditor (5 days)

OHSAS 18001 - OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEMS CERTIFICATION

OHSAS 18001 certification boosts your organization's reputation by demonstrating that you hold a certified Occupational Health and Safety Management Policy. An effective occupational health and safety management system promotes a safe and healthy working environment, by providing a framework that allows your organization to identify and control your management system and improve overall performance.

Implementing the OHSAS 18001 Occupational Health and Safety standard can help your company demonstrate commitment to put your employees' safety and well-being as a top priority, which increases customer confidence as well.

IMPROVE YOUR EMPLOYEES' WELL-BEING IN THE WORKPLACE WITH THE OHSAS 18001 CERTIFICATION

BENEFITS OF OHSAS 18001 CERTIFICATION

- Eliminates or minimizes risk to employees
- Contributes in a healthier and safer working environment
- Demonstrates confidence in your organization
- Reduces downtime risks through on-site accidents
- Implements, maintains and continually improves an OHS Management System
- Ensures legislative and regulatory compliance
- Reduces the likelihood of prosecutions and fines
- Greater involvement in environmental safety from employees
- Increases stakeholder confidence with an internationally acknowledged standard
- Promotes new effective procedures and processes
- Cost savings for rework, damages and waste

NOT SURE YOU ARE READY FOR OHSAS 18001 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the OHSAS 18001 audit and certification.

- OHSAS 18001 Introduction (1 day)
- OHSAS 18001 Foundation (2 days)
- OHSAS 18001 Lead Implementer (5 days)
- OHSAS 18001 Lead Auditor (5 days)

SECURITY

In order for organizations to maintain integrity and continuity of business process, implementing information security frameworks is crucial to demonstrate that they meet high level of business ranking. Since information is a vital resource for organizations, it is important that information security activities are integrated into the corporate governance structure of your company.

Implementing and being certified against the information security standards by an independent third party such as PECB will demonstrate that your organization is compliant, committed professionally, and is taking all necessary measures to secure confidential information.

Our Security Certifications include the following standards:

- ISO/IEC 27001 – Information Security Management Systems

Certifying your organization against Security standards is a proof that your organization is implementing and managing successfully information security management systems.

ISO/IEC 27001 - INFORMATION SECURITY MANAGEMENT SYSTEMS CERTIFICATION

The ISO/IEC 27001 Information Security Management standard helps your organization to keep your information assets secure, by building an information infrastructure against the risks of loss, damage or any other threat.

Companies that certify their management system against ISO/IEC 27001 validate that the security of financial information, intellectual property, employee details, or information entrusted from third parties is being successfully managed and thorough security measures are continually improved in accordance with widely accepted best practices and the standard's framework.

BUILD A REPUTATION AS A COMPANY THAT KEEPS ITS INFORMATION SAFE WITH THE ISO/IEC 27001 CERTIFICATION

BENEFITS OF ISO/IEC 27001 CERTIFICATION

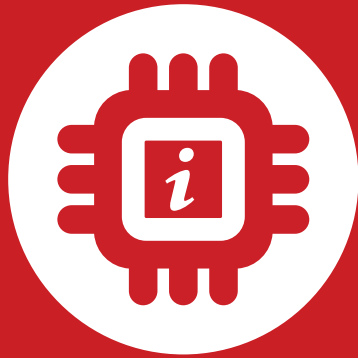

- Provides senior management with an efficient management process
- Provides you with a competitive advantage
- Reduces costs due to incident and threat minimization
- Demonstrated compliance with customer, regulatory and/or other requirements
- Sets out areas of responsibility across the organization
- Communicates a positive message to staff, customers, suppliers and stakeholders
- Integration between business operations and information security
- Alignment of information security with the organization's objectives
- Puts forward true value through enhancement of marketing opportunities
- Keeps intellectual property and valuable information secure
- Seizing opportunities to put forward true value through enhancement of marketing
- Provides customers and stakeholders with confidence in how you manage risk related to information security

NOT SURE YOU ARE READY FOR ISO/IEC 27001 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO/IEC 27001 audit and certification.

- ISO/IEC 27001 Introduction (1 day)
- ISO/IEC 27001 Foundation (2 day)
- ISO/IEC 27001 Lead Implementer (5 days)
- ISO/IEC 27001 Lead Auditor (5 days)

INFORMATION TECHNOLOGY AND SERVICE MANAGEMENT

Information Technology and Service Management is a strategic approach for designing, delivering, managing and improving the way information technology (IT) is used within your organization. The goal of the Information Technology and Service Management standards is to ensure that the right processes, people and technology are in place so that your organization can meet its business goals.

Our Information Technology and Service Management Certifications include the following standards:

- ISO/IEC 20000 – IT Service Management Systems
- ISO 22301 – Business Continuity Management Systems
- ISO 28000 – Supply Chain Security Management Systems

Certifying your organization against ITSM standards will not only improve the effectiveness of your IT Service Management processes, but will also serve as benchmark to your clients for ITSM frameworks and proficiency.

ISO/IEC 20000 - INFORMATION TECHNOLOGY SERVICE MANAGEMENT SYSTEMS CERTIFICATION

The ISO/IEC 20000 IT Service Management System (SMS) standard specifies requirements for the service provider to plan, establish, implement, operate, monitor, review, maintain and improve an SMS. Most importantly, ISO/IEC 20000 certification validates that your company can continuously improve the delivery and quality of your IT services to your clients.

Obtaining the ISO/IEC 20000 certification will enable your company to have reliable, effective, consistent and continually improved IT services.

BUILD AN ORGANIZATIONAL IT SERVICE FRAMEWORK TO MEET YOUR BUSINESS NEEDS WITH THE ISO/IEC 20000 CERTIFICATION

BENEFITS OF ISO/IEC 20000 CERTIFICATION

- Reduction in incidents and improved incident management
- Improving corporate image and credibility
- Adoption of an integrated process to the delivery of IT services
- Reduction in response times and interruptions to IT service
- Improved management of cost leads to financial savings
- Greater understanding of roles and business objectives
- Ensuring legislative awareness and regulatory compliance
- Protecting the company, assets, shareholders and directors
- Increased customer satisfaction from internal and/or external customers
- Provides you with a competitive advantage
- Enhanced customer satisfaction that improves client retention
- Consistency in the delivery of your service or product
- Independent audit demonstrates commitment to IT compliance
- Less IT related incidents and vulnerabilities

NOT SURE YOU ARE READY FOR ISO/IEC 20000 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO/IEC 20000 audit and certification.

- ISO/IEC 20000 Introduction (1 day)
- ISO/IEC 20000 Foundation (2 days)
- ISO/IEC 20000 Lead Implementer (5 days)
- ISO/IEC 20000 Lead Auditor (5 days)

PECB

ISO 22301 - BUSINESS CONTINUITY MANAGEMENT SYSTEMS CERTIFICATION

Every organization nowadays needs to be secured towards disruptions, incidents and inside & outside threats. Apart from being secured, organizations need to have a plan how to react in case these disruptions and incidents occur. For this reason, the ISO 22301 standard has been developed to protect companies against threats, reduce the likelihood of, and ensure your business recovers from disruptive incidents.

An effective Business Continuity Management System (BCMS) certification will help your organization to develop and maintain a best practice approach to respond effectively to any disruption, by implementing continuous improvement tools and techniques enabling your business to continue operating smoothly even after incidents.

REDUCE THE IMPACTS OF INCIDENTS AND ENSURE BUSINESS CONTINUITY WITH THE ISO 22301 CERTIFICATION

BENEFITS OF ISO 22301 CERTIFICATION

- Establishing a framework to identify, reduce, and manage threats for your organization
- Increases organizational productivity with “Plan, Do, Check, Act” best practice approach
- Demonstrated compliance with customer, regulatory and/or other requirements
- Decreases the internal and external business continuity audit costs
- Improve incident response time and minimize the threats
- Gains competitive advantage with an internationally acknowledged standard
- Increases client confidence and demonstrate resilience
- Provides continual assessment and improvement
- Identifies and encourages more efficient and time saving processes
- Improves your risk profile with clients, investors and stakeholders
- Fewer incidents and damages
- Increased confidentiality

NOT SURE YOU ARE READY FOR ISO 22301 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 22301 audit and certification.

- ISO 22301 Introduction (1 day)
- ISO 22301 Foundation (2 days)
- ISO 22301 Lead Implementer (5 days)
- ISO 22301 Lead Auditor (5 days)

ISO 28000 - SUPPLY CHAIN SECURITY MANAGEMENT SYSTEMS CERTIFICATION

ISO 28000 specifies the requirements for a security management system, including those aspects critical to security assurance of the supply chain. ISO 28000 Security Management System (SMS) certification is applicable to all sizes and sectors of organizations, from small to multinational, in manufacturing and service sectors, and in storage or transportation activities, at any stage of the production or supply chain.

By becoming certified against ISO 28000, your organization will commit to deliver systematic security management and will ensure that the security and threats coming from logistical operations and supply chain partners are being managed and controlled.

ENSURE SUPPLY CHAIN RESILIENCE AND VALIDATE A SYSTEMATIC SECURITY MANAGEMENT WITH THE ISO 28000 CERTIFICATION

BENEFITS OF ISO 28000 CERTIFICATION

- Facilitates trade and expedite the transport of goods across borders
- Monitors and manages security risks throughout your business and supply chain
- Gains a competitive advantage and wins new business
- Encourages companies to secure their own processes within supply chains
- Reassures stakeholders of your organization's commitment to the safety of individuals and security of goods and services
- Allows management to focus finite resources in areas of greatest concern
- Benchmarks your organization's security management practices with international best practice
- Achieves cost savings through a reduction in security incidents and potential reduction in corporate insurance premiums
- Gains opportunities to improve efficiency across working practices
- Product and Service quality assurance
- Proof of security

NOT SURE YOU ARE READY FOR ISO 28000 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 28000 audit and certification.

- ISO 28000 Introduction (1 day)
- ISO 28000 Foundation (2 days)
- ISO 28000 Lead Implementer (5 days)
- ISO 28000 Lead Auditor (5 days)

RISK AND MANAGEMENT

The importance of acquiring risk resilience in an effective management system is continuously becoming applicable by organizations, institutions, corporations, firms and is being exercised in most of their daily work operations. Risk and Management strategy helps organizations to maximize their benefits by putting in place efficient tools for a better management.

Implementing standards on Risk or Management, and getting certified by an independent third party such as PECB will demonstrate that your organization is validated to take the best practice approaches towards managing risk, projects and overall company.

Our Risk and Management Certifications include the following standards:

- ISO 55001 – Asset Management Systems

Certifying your organization against Asset Management Standards will ensure effective and efficient management of assets, reduced waste and continual improvements of processes.

ISO 55001 - ASSET MANAGEMENT SYSTEMS CERTIFICATION

The ISO 55001 Asset Management standard guides businesses to control and manage the life-cycle of an asset. The life-cycle of assets goes throughout different stages such as acquisition, construction, operation, maintenance, etc., depending on the type of the asset. Hence, ISO 55001 can be applied to all sizes or businesses and all types of assets.

Organizations that have adopted ISO 55001 certification realized huge benefits after its implementation. This standard will help your business to boost the efficiency and effectiveness of the system and most importantly reach objectives by focusing on risk and cost related to the assets.

ACHIEVE STAKEHOLDER SATISFACTION BY SUCCESSFULLY MANAGING ASSETS WITH THE ISO 55001 CERTIFICATION

BENEFITS OF ISO 55001 CERTIFICATION

- Improved performance of an asset management and control of its life-cycle
- Reduced risks and costs related to assets ownership
- Identifies and encourages more efficient and time saving processes
- Provides and maintains business growth
- Improved organizations performance
- Improved quality of products and/or services
- Realized long term investment opportunities
- Improved communication and relation among departments
- Assists towards funds to shareholders
- Improves the reputation of the organization
- Reduces cost of organization
- Managed Risk

NOT SURE YOU ARE READY FOR ISO 55001 CERTIFICATION?

PECB offers training courses that help you to manage, implement and prepare your company for the ISO 55001 audit and certification.

- ISO 55001 Introduction (1 day)
- ISO 55001 Foundation (2 days)
- ISO 55001 Lead Implementer (5 days)
- ISO 55001 Lead Auditor (5 days)

UNDERSTANDING THE CERTIFICATION PROCESS

A management system certification (also known as “registration”) is granted by PECB, upon verifying through an audit that your organization is in compliance with the requirements of the relevant standard. This certification is then maintained through scheduled annual surveillance audits by PECB, with re-certification of the management system performed on a triannual basis.

- Step 1. Pre-Audit (Optional) - It must be done at least 3 months before the Certification Audit
- Step 2. Audit Plan - Plan for audit has to be mutually agreed
- Step 3. Audit Stage 1 & 2 - Non-conformities must be closed at least 3 months after audit conclusions
- Step 4. Initial Certification - Certificate will be issued within 2 weeks after successful audit closing

Once certification has been obtained, the organization will be subjected to two surveillance audits within 24 months from the initial certification:

- Surveillance Audit Stage 1 - No longer than 12 months from the initial certification audit
- Surveillance Audit Stage 2 - No longer than 12 months from the 1st surveillance audit

To find out how you can obtain the PECB certification, visit www.pecb.com/management-systems
